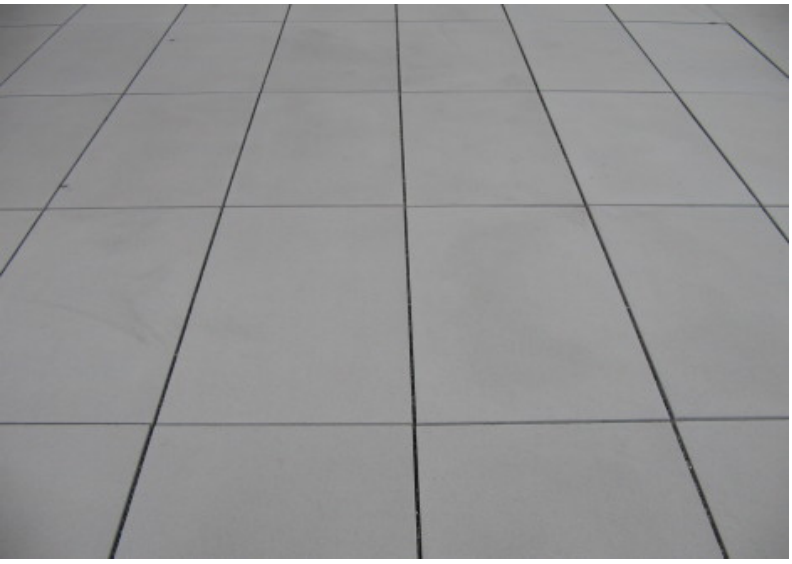
BMW HEADQUARTERS

USE OF SURFACE PROTECTION ON CONCRETE SLAB AND HARDLANDSCAPING ELEMENTS



OVERVIEW

PROJECT BMW Headquarters

PRODUCT Surface Protection

EXPANSE 600 m²

REGION Bayern (D-80)

PRODUCT FEATURES

Our Surface protection products have been developed to provide longlasting protection to concrete surfaces and elements against moisture penetration, efflorescence, oil and other chemical influences (e.g. graffiti). The main cause of weathering and building damage is water, which itself can carry pollutant emmissions, micro-organisms and salts which gradually, over time, can cause serious damage to the concrete.

AREAS OF APPLICATION

- Cladding
- Pre-cast elements
- Concrete products
- Bespoke elements
