- EXPANSE** 180 m²
- REGION** Calgary Canada

Cladding
Designer garden and landscaping elements
Flooring elements
Bespoke products
(Use with in-situ concrete is not possible)

 PRODUCT FEATURES

With our photo concrete technology it is possible to transfer photos, images and logos onto pre-cast concrete elements. In contrast to stenciling methods our technology does not rely on the influence of light and shadows to create an image in the finished element. Images can be protected against staining and efflorescence by using one of our indutry-leading surface impregnators.

Areas of application
