

THE COMPANY – FACTS & FIGURES

FABRiNO

THE FABRINO COMPANY

FABRINO specializes in products for the building industry and has the business divisions **Architectural Concrete Solutions and High-Grade Fibre Technology**.

Managing director Dr. Klaus Hörmann founded the medium-sized company based in the city of Memmingen in Germany in 2005.

FABRINO's core competencies include high-quality products, **the development of industry-specific solutions**, as well as a highly proficient and experienced team, **service-oriented and with a high level of customer focus**.

THE PRODUCTS

FABRINO products are used in all public and private buildings where architectural concrete is in demand. In addition, they are used in commercial industrial floors which require secondary reinforcement.

ARCHITECTURAL CONCRETE SOLUTION DIVISION

High-quality products to refine, add color and protect architectural concrete and exposed concrete surfaces:

- » Surface retarder for the production of exposed aggregate concrete surfaces using the positive or negative process
- » Washing microgel/acidifier gel to produce concrete in a sandstone appearance
- » Liquid paints, pigments, granules to add color to concrete, floor screed and other cement building materials. Certified according to DIN EN 12878 Kat. B for steel-reinforced concrete, dispensing technology and rental dispensing systems.
- » Surface protection systems (impregnations, sealing coatings, anti-graffiti protection coating)
- » FABRINO Colour Coats; coloured glass granules as aggregates (free from alkali-silica reactions)
- » Photo concrete/logo concrete for graphic concrete surfaces (photos, logos, patterns)

HIGH-GRADE FIBRE TECHNOLOGY DIVISION

High-quality products to reinforce concrete used for commercial industrial floors, exposed concrete faces, shotcrete, finished parts, railroad construction etc.

- » High Grade (polyolefine micro fibres for structural concrete reinforcement)
- » Concrix (bi-component synthetic macro fibre for constructive concrete reinforcement)

Concrete facades and structures

Industry hall, interior and exterior concrete areas

OUR CUSTOMERS

FABRINO develops and distributes its products for:

- » Customers from the precast concrete industry, concrete cast stone industry, concrete products industry or ready-mix concrete industry
- » Companies specialising in industrial warehouse construction, commercial warehouse construction, tunnel building and track construction
- » Prime contractors and construction companies
- » Industrial floor layer
- » Architects, engineers, planners and draughtsmen
