

THENEROL BETOCLEAN

HIGH PERFORMANCE CONCRETE REMOVER WITH AN ADVANCED AND SUPERIOR FORMULATION FOR THE CLEANING OF READY MIX VEHICLES AND CONSTRUCTION APPLIANCES

OVERVIEW

THENEROL BetoClean is a gel-based concrete remover and degreaser developed using an advanced formulation of active ingredients.

Major advantages of THENEROL BetoClean include:

- » Fast and effective removal and cleaning of tough and hardened concrete residue.
- » Reduced consumption due to the innovative gel formulation which adheres effectively to the concrete.
- » Mild and gentle odour.
- » Effectively eliminates grease and residue left on surfaces.
- » Gentle on painted surfaces, plastics and seals.

AREAS OF APPLICATION

THENEROL BetoClean has been developed for the removal and cleaning of mortar, cement and concrete residue.

For the effective cleaning of construction machinery, tools and equipment without damage to metal, synthetics or coatings.

GUIDANCE

THENEROL BetoClean is delivered ready-to-use but should be stirred prior to application; it does not require dilution with water. It should be applied directly to the surface using a brush or broom.

The product should be left on the surface long enough to allow it to react with the concrete before being washed away. The use of mechanical pressure (from either the brush or a soft-edged scraper) may be required to remove older or more persistent spoiling.

THENEROL BetoClean must not be allowed to dry on the treated surface and should be thoroughly washed away with clean water. A repeat application may be necessary. The most effective wash-out is achieved using a high-pressure hose and warm water.

TRIALS

Appropriate tests and trials must be conducted to determine the suitability of the cleaner.

TECHNICAL SUPPORT

Our application specialists are available to provide technical support and consultation:

T +49 (0) 8331 92506-25

TECHNICAL DATA

FORM	Fluid gel
COLOUR	Off yellow
DENSITY	Approx. 1.17g/cm ³
PH-VALUE	<2
SHELF-LIFE	18 months from date of manufacture
STORAGE	Dry, clean and away from direct sunlight
CONTAINER	18 kg tub
SAFETY	See EU safety data sheet

AT A GLANCE: FABRINO

FABRINO is a leading, specialist provider within the global construction industry, made up of two distinct business divisions; Architectural Concrete and High-Performance Fibers.

Our customers include precast and ready mix concrete manufacturers, construction companies, industrial floor providers as well as building material distributors. As well as providing for our direct customers the active support of our industry partners, including architects and contractors, is something we pride ourselves in.

OUR PRODUCTS

Architectural Concrete Division: Innovative products for the refinement, colouring and protection of architectural concrete and cast stone.

High-Performance Fibers Division: High-quality products for the reinforcement and enhancement of industrial floors, concrete slabs, exterior concrete surfaces, shotcrete, precast elements and railway lines.
