AT A GLANCE: SICOROL SURFACE PROTECTION SYSTEMS

AREAS OF APPLICATION

	SICOROL F	SICOROL N	SICOROL N PLUS	SICOROL GP
Concrete facades	x	x	x	x
Precast elements	x	x	x	x
Artificial stone	x	x	x	x
Concrete products	x	x	x	-
In-situ concrete	x	x	x	x

SURFACES

etched	x	x	x	x
exposed	x	x	x	x
smooth formwork	x	x	x	x
grit-blasted, bush-hammered	x	x	x	x
Photo & Logo Concrete	x	x	x	x
structured surfaces	x	x	x	x

Please obey the technical and safety data sheet!

CHARACTERISTICS

	SICOROL F	SICOROL N	SICOROL N PLUS	SICOROL GP
colourless	x	-	-	x
color-deepening	-	x	x	-
produces silky shine	-	-	x	-
film-forming	-	x	x	x
waterbased / solvent-free	x	x	x	x
vapor permeable	x	x	x	x
UV-resistant	x	x	x	x
fast-drying	x	-	-	-
non-yellowing	x	x	x	x
alkali-resistant	x	x	x	x

Please refer to the technical data sheet for further information.

SICOROL SURFACE PROTECTION SYSTEMS

FABRINO Surface protection systems have been developed to provide longlasting protection to concrete surfaces and elements.

Our SICOROL range offers protection against moisture penetration, efflorescence, oil and other chemical influences (e.g. graffiti).

SICOROL F

SICOROL F is a water-based, solvent-free, ready to-use concrete impregnation product certified according to DIN 1504-2. It is a colorless solution and will not alter the finished color of the concrete.

SICOROL N

SICOROL N is a color deepening, water-based impregnation product that displays no lasting gloss effect. It is delivered ready for use, creates a protective film and is very well-suited for lasting impregnation of concrete surfaces.

SICOROL N PLUS

SICOROL N Plus is a color deepening, water-based impregnation product that displays a long lasting gloss effect. It is delivered ready for use, creates a protective film and is very well-suited for lasting impregnation of concrete surfaces.

SICOROL GP

SICOROL GP is a ready to-use water-based and colorless Graffiti-impregnation for concrete surfaces.

By using this product, the concrete surface is not only protected against graffiti soiling, but also meets the protection requirements at the same time of a classic impregnation.

SUPPLEMENTARY PRODUCT SERIES

ELUENT MICROGEL PRODUCTS

Through the use of etching gels from our BETOGEL range, untreated concrete surfaces can be aesthetically treated. The acidification produces fine natural stone like surfaces.

The user can choose from 5 versions with 4 different efficiency levels.

PIGMENTS, GRANULATES AND LIQUID COLORS

from our REBAcolor and REBOxid series. This range can transform your products and add the dimension of color to your concrete.

AT A GLANCE: FABRINO

FABRINO is a leading, specialist provider within the global construction industry, made up of two distinct business divisions; Architectural Concrete and High-Performance Fibers.

Our customers include precast and ready mix concrete manufacturers, construction companies, industrial floor providers as well as building material distributors. As well as providing for our direct customers the active support of our industry partners, including architects and contractors, is something we pride ourselves in.

OUR PRODUCTS

Architectural Concrete Division: Innovative products for the refinement, colouring and protection of architectural concrete and cast stone.

High-Performance Fibers Division: High-quality products for the reinforcement and enhancement of industrial floors, concrete slabs, exterior concrete surfaces, shotcrete, precast elements and railway lines.
