THENEROL TK

SPECIAL DETERGENT BASED ON TENSIDES

Productinformation

PROPERTIES
- solvent-free
- slightly alkaline

APPLICATION
For all mineral surfaces.

For all cementitious and mineral building materials and exposed aggregate concrete slabs Thenerol TK contains a balanced combination of dirt-dissolving and purifying active components. Thenerol TK dissolves and removes oil and grease, residues of floor care products, self-gloss films, light wax films and tenacious general soiling.

Depending on soiling Thenerol TK can be diluted with water to 1 : 20. In case of a stronger degree of soiling apply Thenerol TK pure or diluted with water to 1: 5. Depending on the purpose of cleaning Thenerol TK is applied with a brush or by spraying. After approx. 5 - 15 min. time of reaction brush the surface and absorb the cleaner. Rinse well with clear water.

Do not allow the cleaner to dry on the surface. If necessary, still add some water and brush again. Yellow discolouration's form when product residues dry on the concrete surface.

Ingredients:
< 5 % anionic surfactants
< 5 % non-ionic surfactants
< 5 % Phosphates

Generally, conduct a preliminary test to avoid changes in colour of the surface to be treated and to determine the needed quantity.

QUANTITIES TO USE
10 - 100 g/m². Depending on application up to optimum cleaning effect. The application can be repeated as often as required until perfect cleaning.
The product may not dry up.

SPECIFICATIONS

Appearance:	liquid
Colour:	white
Density:	1.04± 0.02 g/ml
pH-value:	10.4

STORAGE
Protect against frost and dirt. Under normal storage conditions (closed container, 20 °C) minimum shelf life 12 months.

PACKAGING
Can: 20 kg and 5 kg
Bottle: 1 kg
Please ask for further package sizes.

SAFETY RULES
See EC safety data sheet.
In case of cleaning work indoor take care of sufficient ventilation. Avoid direct contact with the skin.
Wear gloves during work. During cleaning work ensure good ventilation (5 to 15 air changes per hour) or exhaust suction device to use.
